

“FLOATING SOLUTIONS FOR THE NEXT SDGs”

AUGUST 28-30TH, 2023

VENUE

Auditorium-1, College of Science and Technology, Nihon University
1-8-14, Kanda-Surugadai, Chiyoda-ku, Tokyo

Organized by

WCFS2023 Japan, Conference Executive Committee
Chair, Dr. Shigeru Tabeta, Prof., University of Tokyo

World Conference on Floating Solutions (WCFS) aims at providing solutions to mitigate challenges associated with climate change, population growth, renewable energy, food production, etc. by using floating technologies.

The first conference was held in Singapore in 2019 by the "Society of Floating Solutions, Singapore (SFSS)" and the second one in Rotterdam in 2020.

We are delighted to announce the third conference, WCFS 2023 Japan to be held in Tokyo under the theme of "Floating Solutions for the Next SDGs" as described below.

More than 50 papers are expected from all over the world, representing diverse participation across disciplines such as architecture, civil engineering, and marine shipping.

A concurrent special exhibition titled 'Architect Kiyonori Kikutake and Dr.J.P. Craven's Floating City Project' will be held simultaneously, offering valuable materials to the public free of charge.

We look forward to seeing you in Japan.

KEYNOTE SPEAKERS

Dr. Takeshi Kinoshita
Professor Emeritus,
University of Tokyo

Dr. Toshio Nakajima
CEO, Waterfront Real Estate
Naval Architect, Floating
Structural Designer

Dr. Stefan Huebner
Senior Researcher Fellow
National University of
Singapore

Dr. Rutger De Graaf
Co-Founder Blue21
& Researcher
in floating developments

Dr. Koen Olthuis
Architect
Co-Founder Waterstudio
& Dutch Docklands
